

ABOUT US

WE EDUCATE.

Campus Advocacy, Resources and Education (CARE) provides prevention education for the UC Merced community to achieve an environment free from the threat of sexual violence, dating/domestic violence and stalking

WE ADVOCATE.

We provide free, confidential and knowledgeable support for those impacted by sexual violence, dating/domestic violence and stalking

WE EMPOWER.

We encourage the UC Merced community to step in and speak up against a culture that allows sexual violence, dating/domestic violence and stalking to occur.

DIRECT

Talking to the people involved about what is going on. It can be talking to the person you think is doing the hurting and them to stop or checking in with the person you think is being harmed and seeing if they are okay.

DISTRACT

This is safely diffusing the situation by taking away attention from the situation and indirectly stopping the abuse.

DELEGATE

This is when you get someone else involved to help you intervene. It could be a friend or an authority figure.
